Good Morning John...

I know that the Board is interested in whether or not you have been able to make any progress in getting the "high stickers" (over 12 ft) removed by City crews. The BID maintenance crews will address stickers below that height.

You have been very supportive in trying to get this work done. I know the Board Members appreciate that. The Board believes that this work is uniquely within the City's scope and that City personnel should perform it. At the same time, if the answer is that "it's probably not going to happen," let's just be up front and tell the Board about the City's fiscal realities so that their frustration does not increase to the boiling point.

Thanks John. Let me know what's happening here.
